

PurgeLog™ Data Logging Software Frequently Asked Questions

1. What is PurgeLog™?

PurgeLog™ is a Data Logging Software that is automatically included as standard with any of the Argweld® PurgEye® Weld Purge Monitors® which measure down to 1 ppm (accurate to 10 ppm).

2. How is PurgeLog™ Data Logging Software supplied?

PurgeLog™ Data Logging Software is supplied on a USB data stick for easy installation onto a Windows based PC. PurgeLog™ software is simply a 'plug and play' install onto your PC.

3. How does PurgeLog™ Data Logging Software work?

PurgeLog™ Data Logging Software transfers purge data onto a PC using the PurgeNet™ Smart Lead and has the option of being imported into a spreadsheet for further manipulation.

4. Which Weld Purge Monitors® include PurgeLog™ Data Logging Software?

Both PurgeLog™ Data Logging Software and PurgeNet™ Smart Lead are included with all 1 ppm PurgEye® Weld Purge Monitors® (accurate to 10 ppm). This includes the PurgEye® 200, PurgEye® 500 Desk, PurgEye® 600, PurgEye® 1000 Remote and PurgEye® 1500 Site.
