

Argweld[®] Heat Resistant Covers

for PurgElite[®] Inflatable Tube and Pipe Purging Systems

- The Argweld[®] Heat Resistant Covers have a temperature resistance up to 300°C (572°F).
- Available for PurgElite[®] Systems, sizes ranging from 1 to 24" (25 to 610 mm).
- Ties on each Heat Resistant Cover ensure they are held securely to the Inflatable Tube and Pipe Purging System.
- Holes are designed and manufactured on each Heat Resistant Cover for the PurgElite[®] fittings, such as inlet, exhaust, Weld Purge Monitor[®] connection and crimped end.
- The Heat Resistant Covers are sold as a set of two, however individual ones can be purchased if necessary.
- Heat Resistant Covers can also be manufactured for any other make of Inflatable Tube and Pipe Purging Systems.
- PurgElite[®] Systems can be manufactured with longer spinal hoses, so that the dams sit further to the outside of the heat treated zone, where the temperature has cooled sufficiently to suit the dams and any heat protecting material used.
