

# PurgeGate® Valves

A revolutionary device for **PurgElite®** and other  
**Inflatable Pipe Weld Purging Systems**

**PurgeGate®** can be purchased as an accessory for the **PurgElite®**  
**Inflatable Tube and Pipe Weld Purging Systems** as well as any **Inflatable**  
**Pipe Weld Purging Systems** that may be fabricated elsewhere.

- Manufactured as standard on QuickPurge® and HotPurge®.
- Prevents dams from bursting due to over inflation.
- PurgeGate® Valves fit all Weld Purging System sizes 1 " - 88"  
(25 mm - 2,235 mm).
- Just plug in your argon line and set the recommended pressure and flow rate.
- Easy push fit connection.
- No restriction on flow.
- Simply plug and play, also reusable and can be moved from system to system.
- It is important to connect the PurgeGate® in the correct direction with the arrow shown, pointing in the direction of the purge gas flow.
