

What do these two have in common?

&

They could both cause lung damage

Using **THORIATED** TUNGSTENS will cause risk to the user, such risks are:

- Irritation through skin contact.
- Recognised as a carcinogen.
- Dust likely to remain in lungs for years after inhalation.
- Deposits in lungs can lead to lung damage.
- Can cause pulmonary fibrosis and pneumocirrhosis.

**However... for a healthier alternative turn
over the page...**

Techweld® MultiStrike® Tungsten Electrodes for improved TIG welding

- Increases the number of arc strikes before re-sharpening is necessary.
- Contains no radioactive material.
- Lowers the working temperature giving cooler welds.
- Special packaging gives guarantee of quality and traceability.
- Eliminates carcinogenic thoria.
- Available from your nearest distributor.

2% Thoriated Tungsten
showing risk of uneven
thoria distribution

MultiStrike® Tungsten
showing double the dopant
with even distribution

TWICE THE STRIKING POWER

Because of growing concerns of potential hazards of ingestion of radioactive dust, **MultiStrike® Tungsten Electrodes** contain a new dopant to replace thoria and eliminate the radioactive content. The new dopant has only half the density of thoria, so with the 2% of our new dopant included, there is twice as much striking power because of the improved distribution of the dopant.

(MST Flyer - 19-07-2016 ME

MultiStrike® Tungsten Electrodes have ingredients which greatly enhances electrode life, multiplies the number of strikes per tungsten and does not contain any radioactive material.

NO RADIOACTIVE ELEMENTS

Unlike tungsten-thoria, MultiStrike® Tungsten Electrodes contain no radioactive element. Where Health and Safety authorities or others are concerned about the radioactive or carcinogenic effects of thoria, MultiStrike® Tungsten Electrodes are a high quality alternative.

SPECIAL PACKAGING GUARANTEES QUALITY

MultiStrike® Tungsten Electrodes always originate from the identical source, giving the user a guarantee of product quality, reliability, repeatability, consistency and traceability. Each pack of 10 is supplied in special packaging which is your guarantee every time of quality and traceability.

HUNTINGDON FUSION TECHNIQUES ■ HFT

Our Product Range:

- Argweld® Inflatable Pipe Weld Purge Systems
- Argweld® PurgEye® Weld Purge Monitors® (Models 100 to 1000)
- Argweld® Water Soluble Weld Purge Film and Weld Purge Super Adhesive™
- Argweld® Weld Trailing Shields®
- Argweld® Weld Backing Tape™ & Weld Purge Tape™
- Argweld® Flexible Welding Enclosures®
- Argweld® Weld Purging Plugs™ & Orbital Welding Plugs
- Techweld® MultiStrike® Tungsten Electrodes

HFT Pipestoppers® Division:

- Nylon, Aluminium, Steel and Rubber Pipe Plugs and Inflatable Stoppers
