

# Accu-Freeze™

## Automatically Controlled Liquid Nitrogen Pipe Freezing System

HFT PIPESTOPPERS®

- Saves valuable time normally lost draining and refilling a system.
- Avoids complete shutdown of systems and equipment.
- Prevents waste of large amounts of water.
- Eliminates handling of contaminated water.
- Safe and cost effective.
- Able to control the system from a remote location.
- Ability to automatically control the freeze temperature.
- Liquid N2 delivery is more cost effective than other refrigeration systems.
